A Review on Hyper-Parameter Optimization by Deep Learning Experiments

Rohan Bhattacharjee

Student at Institute of Engineering & Management (IEM)
Kolkata, West Bengal, India

Summary

I am a strong believer in the notion: "....the sky is the limit". I am an AI-ML Enthusiast. Although am pursuing a career in a Computer background, I do not wish to restrict myself from learning diverse skills and achieving laurels. I started college in Nov'20 - so I did not get vast windows to climb onto opportunities. However, I have worked as a content writer (intern) and worked in social media marketing. Recently I and my college friends have started with a practice venture, led by Wadhvani Foundation and have achieved a "Potential Venture" Certificate by Global Jury.

Currently I am an intern in IEMLABS working on some of the hot topics like Metaverse, Mixed Reality, Virtual Reality and Unity Development.

Experience

IEMLabs

AR-VR Intern

April 2022 - Present (10 months)

The Meal Deals

Content wr

November 2020 - December 2020 (2 months)

India

This was my first internship and I am glad I could be a part of it. Thanks to my mentor there who helped me through this wonderful journey. This first-hand experience is priceless in my growing web of life.

Education

Institute of Engineering & Management (IEM)

Bachelor of Technology - BTech, Artificial Intelligence · (2020 - 2024)
